

# Deltek GCS Premier® 5.0 Service Pack 8 Fixed Price Package Service

## KEY FEATURES AND BENEFITS OF GCS PREMIER 5.0:

- Continued Critical Updates
- Enhanced User Interface
- Support at Your Fingertips with Online Help
- Includes New Premier Billing Module
- MS Server 2008 (including R2) and Windows 7 Support

## WHY USE THE UPGRADE PACKAGE SERVICE?

- Tried and True Methodology Accelerates Upgrade and Minimizes Risk
- Deltek's Expertise and Experienced Staff
- Predictable Costs
- Everything You Need to Efficiently Upgrade is Included

## Streamline Your Upgrade from GCS Premier 4.x to GCS Premier 5.0 with Service Pack 8 (SP8)

The Deltek GCS Premier 5.0 Package Service is specifically designed to provide a cost-effective and low-risk method to help customers quickly and efficiently upgrade from GCS Premier 4.x to GCS Premier 5.0. And with the help of Deltek's experienced professionals, you are ensured a faster, easier upgrade process.

### MAINTAIN CRITICAL UPDATES

With the release of GCS Premier 5.0 SP8, Deltek will be moving version 4.x to "sustaining" support. New tax, legal and regulatory updates will not be available for 4.x clients. While Customer Care will continue to take support calls, no further corrections, service packs or updates to 4.x will be provided once 5.0 SP8 is released.

### ENHANCED USER INTERFACE

With a look and feel similar to that of Microsoft Outlook, the new GCS Premier interface is designed to optimize user navigation:

- Left-side navigation pane provides quick access to the modules and applications, displayed in a hierarchical tree structure
- Right-side viewing pane, or the "landing page," displays selected applications
- Run multiple applications at the same time, from diverse groups and modules

### ONLINE HELP

The Deltek GCS Premier documentation has gone through an exciting transition – GCS Premier 5.0 now contains a completely HTML-based Online Help system. This new feature puts the user documentation where you need it most – in the software itself. In addition, Online Help contains two new sections: Order Entry and Premier Billing.

### PREMIER BILLING MODULE

This new module, only available with GCS Premier 5.0, was designed specifically for government contractors to bring flexibility and customizability to invoice production.

Integrating the ease of Excel with the sophistication of GCS Premier, this module simplifies the process of printing government-required forms, including printing the Standard Form 1035 through Microsoft Excel. It also enables you to customize your own templates with company-specific information, such as logos, signature lines, and the specific fields you need from three Premier Billing screens.

All functionality is entirely within the Premier Billing, so no third party applications are needed:

- Customize templates to meet your unique needs
- Create multi-page templates
- Associate templates with existing contracts at the click-of-a-button
- Generate invoices directly based on custom templates you create
- Share or restrict template creation, access, and availability as needed

## A FASTER, EASIER UPGRADE PROCESS

### PROVEN METHODOLOGY

Our fixed price offering is based upon our experience and proven methodology for upgrading to GCS Premier 5.0 SP8. Through a combination of product expertise, Deltek developed tools and techniques, you are ensured a smooth, low-risk, and accelerated upgrade process.

When you take advantage of Deltek Global Services' experience and expertise for your deployment, you are ensuring a smoother, more accelerated process for your organization. You'll get the benefit of over 20 years of implementation experience from our trained Deltek professionals. Our consultants have extensive knowledge of the product, enabling them to deliver field tested tools and techniques that accelerate your time to benefit.

### PREDICTABLE COSTS

Our fixed price offering allows you to accurately control and predict the cost of migrating from 4.x to 5.0 SP8. Our package service offers all the necessary tools to get you up and running quickly. We understand your time is valuable so we have included everything you need for success – a technical assessment, detailed project plan, upgrade scripts, test plans, post-upgrade assessment and training.

## WHAT'S INCLUDED IN THE FIXED PRICE PACKAGE

### TECHNICAL READINESS

Our Deltek System Solution Group consultants will perform reviews of your target hardware and software upgrade environment and your configuration prior to upgrade, ensuring all application system and performance requirements are met.

### UPGRADE FROM 4.X TO 5.0

Our tested upgrade process will quickly and efficiently upgrade your "out of the box" GCS Premier 4.x application and data, and migrate it to GCS Premier 5.0 SP8. This is a one-time upgrade to a single database (test or production).

### TESTING

The functional test plan provides assurance that your data integrity is maintained with the upgrade and provides confidence that all functions are performing properly.

### DEPLOYMENT SUPPORT

Deltek will configure and test up to five local workstations to validate proper client configuration and connectivity.

### GCS PREMIER FAMILIARIZATION AND OVERVIEW

Deltek will perform a session at one location or via Live Meeting on the new features and functions of GCS Premier 5.0 (up to two hours).

### POST-INSTALLATION REVIEW

Deltek will lead a 90 minute review to be performed within two weeks of Acceptance. This is intended to answer any follow-up questions and discuss additional requirements.

## À LA CARTE OPTIONS

Additional services that can be ordered separately include:

- **Server 2008 Upgrade Assistance** – Deltek will provide technical expertise and assistance to clients looking to upgrade their server to MS Server 2008.
- **Production Database Support** – Deltek offers support in migrating to your production environment.
- **Training** – Deltek University offers several courses to gain the necessary knowledge and skills to maximize your investment.
