

Deltek Vision® Reporting Productivity Assessment

BENEFITS OF VISION REPORT PRODUCTIVITY ASSESSMENT:

- **Enhanced Reporting Functionality**
- **Accounting & Billing Practices**
- **Project Planning & Management Requirements**
- **Training Program Development**
- **System Analysis**
- **Solution Design**

Reach Optimal Functionality with the Deltek Vision Reporting Productivity Assessment

The Deltek Vision Report Assessment is designed to help you evaluate the effectiveness of your report functionally from a “best practice” approach. All report types will be considered and there will be a focus on reconciling your project and GL reporting.

This assessment is essential as your company plans for the move to Vision 6.0. With the change to a SQL based reporting engine, the reporting functionality will be greatly enhanced and will address many of your current reporting restrictions. Users on previous versions will benefit from a preview of what Vision 6.0 reporting is capable of, and we’ll address your current reporting needs.

DELTEK CONSULTING – YOUR VISION PARTNER

Our trusted Deltek Consulting team has over 20 years of experience implementing and upgrading all facets of Vision. When you use Deltek Consulting for your assessment, you will receive the benefit of an entire team of industry professionals that are available to help ensure your success.

With the Deltek Vision Reporting Productivity Assessment, you’ll reach optimal reporting functionality, allowing you to create attainable short and long-term goals to ensure the future prosperity of your business.

WHY USE THE VISION REPORTING PRODUCTIVITY ASSESSMENT SERVICE?

This important assessment is timely as it coincides with the release of Vision 6.0 and provides the information you need to achieve strategic alignment of your entire organization. Our consultant will help you understand how you can get more out of the Vision system:

UNDERSTAND REPORTING REQUIREMENTS

- Discussion regarding business processes and report current and desired output
- Review of specific reports
- Identify current reports in production
- Identify options for improvement including Vision 6.0 SQL reporting functionality

ACCOUNTING AND BILLING PRACTICES

- Review of current business practices including revenue recognition, WBS
- Identify inefficiencies/problems

PROJECT PLANNING AND MANAGEMENT

- Identify key success factors
- Recommend improvements

TRAINING PROGRAM DEVELOPMENT

- Education and training on new Vision 6.0 functionality
- One-on-one training with end-users

More than 12,000 customers worldwide rely on Deltek to measure business results, optimize performance, streamline operations and win new business.

ANALYSIS

- Ensure that reports provide the desired information
- Recommend improvements and create new reports
- Validate data in all modified and new reports
- Assist in the roll-out of new reports

THE VISION REPORTING ASSESSMENT PROCESS

- **Project Initiation:** Deltek Consulting works with you to get an understanding of your business processes
- **Elicit Information:** Additional process information is provided by you
- **Validate Information:** Our consultant facilitates a meeting with key stakeholders within your staff to assess the entire system (Senior Management, Project Managers, System Administrators, Staff Accountants)
- **System Analysis:** Review the findings and discuss issues
- **Solution Design:** Provide a formal Assessment Report summarizing current status with recommendations for process improvements and cost estimates for new applications, reports and services
